

Signature Homes Northland has been using the services of Laser Electrical since their beginning. The attention to our and our client's needs, in that time has been second to none. The team environment flows right throughout the Laser staff and is evident no matter which member you deal with. There is always a willingness to work through and address concerns if any. Ryan and Steve have surrounded themselves with people whom have the customer's needs front of mind and as such the comments we have and continue to receive from our customers has been always of a positive nature.
